

## Vaccinations

### Will the vaccine make me sick?

- No, you will not get COVID-19 from the vaccine. You might have some side effects after getting the first or second shot, but those symptoms should go away within a few days. If they don't, call your doctor.
- Common side effects include a sore arm (where you get the shot), fever, muscle aches, headache.

### If I get the vaccine, do I still have to wear a mask?

- Yes. Because not everyone is vaccinated, and because there are still new contagious COVID-19 variants, you should keep wearing a mask, being socially distant, and washing your hands.

### Will the information I provide get used by immigration services?

- No. No information that you give us will be used by immigration services or the government to track you, your family members, or your neighbors. The information is to help us know who has already gotten the vaccine, and who might not yet have access to it.

### Schedule your vaccine appointment:

Open to any Massachusetts resident

<https://www.lchcnet.org/covid-19-vaccine-scheduling>

### More information:

<https://www.lchcnet.org/covid-19-vaccine-information>

### Mobile Vaccine Clinic: We'll bring vaccines to you!

<https://www.lchcnet.org/mobile-vaccination-program>

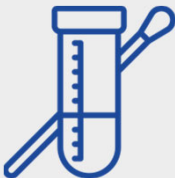

- For businesses, community organizations, places of worship
- At your site, or collaborate with another organization
- We are committed to making it work with your organization

*No car necessary for testing or vaccinations  
You do not need to be a patient of LCHC or have health insurance.*

## Testing

### Why should I get tested?

- Tracking COVID-19 positivity rates will help us reopen our community safely and protect everyone we love
- Vaccine supply is limited, and not everyone has the vaccine yet
- The vaccines are not quite 100% effective, even though they are still a huge help and are very safe

- ✓ Anyone can be tested, both adults and children
- ✓ You do not need to have health insurance
- ✓ You will not be asked about your immigration status

### Check our hours for free testing:
